CAMPBELL THE WINNER.

The Ohio Democrats Again Select Him to Lead Them to Victory Against McKinley.

CLEVELAND, Ohio, July 15.—CONVENTION HALL.—The beautiful Music Hall of the Forest City looked like a veritable fairy grotto today. Red, white and blue bunting, in fantastic design, enveloped the pillars and the railing of the balconies until not an inch of the corridors was visible. The platform was banked with tiers of majestic palms and noble chrysanthemums, over which the mouths of big brass cannon frowned ominously upon the Hamilton county delegation, and huge baskets of Marshal Neil roses shed their fragrance from the tables allotted to the press.

From the glass dome of the hall depended in the air a magnificent floral design, with the inscription in white violets, "Democrats of Ohio, Welcome to Cleveland." A monster American flag, and a profusion of choice exotics made an appropriate back-ground to the stage, while from the roof and supports countless hundreds of star spangled banners fluttered in that graceful breeze, created by a score of electric fans.

Tubs of lemonade, to a total of five hundred gallons, were ranged about the hall at points most convenient to the respirative delegations.

Half past ten was the hour named in the official call for the gathering to be called to order, but as early as eight the crowd outside of the structure made the thoroughfare impassable and when the doors were thrown open it seemed but a few minutes before every one of the 5,000 or more seats had its occupant. From the rear of the stage (a safe place in view of the possibility of trouble) a large number of ladies viewed the proceedings with interest.

As a prelude to the formal proceedings the band in the balcony rendered a medley of national airs and after State Chairman John S. Norton had called the gathering to order, the blessing and protection of the creator was invoked by Rev Dr. T. W. Campbell, pastor of the Cleveland First Methodist church. After the prayer the convention was entertained with a song of welcome by the Thurman quartet, of Columbus. State Chairman Norton then bade welcome to the delegates in a rousing speech.

As Chairman Norton concluded with his touching eulogism of Allen G. Thurman, the delegates and spectators broke into enthusiastic applause, and when Allen W. Thurman was introduced as the temporary presiding officer, and the tall, majestic form of the son of Ohio's "Old Roman" appeared before the foot lights, the enthusiasm was intensified ten fold. Not until they were exhausted and the thousands ceased their plaudits, and then in clear, ringing tones the temporary chairman began his address. As he proceeded every telling point was punctuated with cheers and shouts of approval. It was a most successful entree to that political stage to which his venerated parent bade farewell a few months since.

The son of the "Old Roman" began as follows:

In his speech nominating Major McKinley, Governor Forster said that even the wiles of the devil seemed unable to kill the democratic party, which undoubtedly meant that it will never be destroyed by the republican party. Evidently the fact must have occurred to him that this grand old democratic party has seen the birth, growth and death of every political organization that has ever arisen in this country. Now, an organization that cannot be killed, even by the evil spirit, must be immortal; that is, it can never die, and in the end it will certainly put all of its enemies under its feet, including Major McKinley and the republican party.

In a few weeks the democracy of Ohio will by its ballots most emphatically condemn an industrial policy that is a continual barrier to commercial prosperity; they will demonstrate that they no longer believe that the only way by which a country can be made rich is by buying from itself and selling to itself; they will also show that they do not believe a country can be made rich by excessively taxing itself; when they will in thunder tones, denounce the wanton extravagance and wastefulness of a party which, in two short years, by profligate expenditure completely wiped out the tremendous surplus of $140,000,000, which had accumulated under the honest, economical, democratic administration of Grover Cleveland.

The speaker criticised the policy of the republican party in raising the average rate of duties from 47 to 57 per cent.; in clothing the president of the United States with unconstitutional powers; in his pernicious class legislation, driving the American marine off the high seas; in assisting England in her attempt to establish mono-metallism; in adding in a short time 2,000 names to the list of officeholders; in blocking all legislation for months in an endeavor to enact an infamous, villainous and partisan force bill.

Mr. Thurman then spoke on reciprocity. The time is near, he said, when the people will express their belief in complete and not restricted reciprocity; if reciprocity—which has always been a democratic, not a republican, doctrine—is a good thing with South America, why would it not be a better thing with Canada and Europe, countries with which our trade is a hundred-fold greater than it is with South America? The time has also come when the people will say to the powers that be, the honest workingman shall no longer be compelled by law to contribute a part of his hard-earned savings to help maintain those who, under the forms of law, have robbed him for over a quarter of a century; when they will no longer sustain any party which levies and collects one dollar of taxes over and above that which is required to wisely and economically administer the affairs of the government; when they will give due notice that infant industries that have been nursed for a hundred years have arrived at the age when they must take care of themselves; when they will brand a protective tariff as stealing, its advocates as beggars and demand that we must have a tariff for revenue only.

The greatest curse that can be inflicted upon a country is that of excessive taxation, and when collected indirectly by a tariff, levied only for the sake of protection, it steals and saps away the very life-blood of a country's prosperity. And it does this by such insidious ways that the true causes of commercial depression, when it comes, are lost sight of, and in seeking remedies the people are led off into false trails, made to scatter instead of concentrating their forces and thus their power is wasted; therefore, no matter how important they may appear, let all side issues alone until this one of taxation is settled upon an honest and just basis.

I most earnestly beseech the farmers, whose interests are identically the same as my own, to follow this course. The wild schemes of government loaning money upon warehouse certificates, or upon lands, the taking possession of the railways and telegraphs by the government, the internal improvements that are demanded and a dozen other minor issues that all lead, not only to greater taxation, but to the rankest kind of socialism, I say to them, put them to one side and stick to the tariff issue until you get what is due you.

I say to the farmers do not, like protectionists, be beggars, but rely upon your own strength, resources and manhood. Advocate nothing that has the least semblance of stealing by law, and "by the eternal" make these tariff beggars quit stealing in this way from you.

On this issue the right is absolutely on our side, and the challenge having been fairly given by the nomination of the high chief of protection—Major McKinley—let us meet it, and make every hilltop and every valley in the whole state ring with the battle cry, "Industrial freedom for the many." Can you doubt the result? Do you believe the people of this state will say by their votes that they are still willing to pay tribute for imaginary and fraudulent blessings? That they can any longer be deceived by the old, worn out cry of home market? That the people of this state can be gulled by telling them what a good thing it is for the people of the United States to be permitted by their government, when they pretend to be freedmen, to sell a very small portion of their surplus products to one part of the globe and what a ruinous thing it would be for them to be allowed to sell all of them to another portion of it?

From time immemorial commerce and trade, which are only the exchanging of commodities have been sought after by all people and considered beneficial by all nations. In all exchanges in the long run there must be a profit; why then limit these exchanges? If the people of this country can make $150,000,000 each year by exchanging their products for those of some other country wouldn't they be fools to indorse a policy which permits them to exchange only enough to make $50,000,000? I say let the people themselves decide where and with whom it would be beneficial to trade and not let the government decide this for them.

Mr. Thurman's closing remarks, in which he urged the party to be united and harmonious, were almost drowned in applause from the Campbell delegates, his opponents meanwhile preserving a stolid silence.

From the committee on permanent organization came a report submitting the name of Ex Congressman Frank Le'Blond, of Mercer county, as permanent presiding officer. It was adopted with an hurrah. Le'Blond spoke briefly but to the point. He told the delegates that they were the representatives of the intelligence of the state, and that Thomas Jefferson, had he lived to this day, would have been proud of them and of the democratic party as it now exists. This and the usual thanks was all.

Under the new state election law it is necessary that each party shall select a device to be placed upon its printing, and Major W. W. Armstrong proposed that the democracy should adopt a barn yard rooster. Some of the delegates preferred the American flag, but it was explained that this was prohibited by the statute, and Armstrong's resolution was adopted with a chorus of "crows."

This matter disposed of, the committee on credentials made a report, recommending that in the matter of those contested delegates from Hamilton county the regulars and contestants be allowed a half vote each. There was a minority report in favor of the sitting delegates. This threw the convention into an uproar.

T. J. Cogan, of Cincinnati, one of the secretaries of the body, took the platform. It was expected that he was not a delegate, but the chair ruled that as an officer of the body he was entitled to be heard. The decision was appealed and a roll call demanded amidst great uproar, a score of delegates in all parts of the great hall endeavoring to get recognition at one and the same time. The chairman refused to entertain the appeal and when Cogan attempted to speak he was greeted with cat calls, howls and hisses, which for a few moments drowned his stentorian voice. He had the bulk of the body with him, however, and finally he was allowed to proceed and made a good argument in support of the majority report. Judge Erlston and other Cincinnatians endeavored to maintain their position, but the disorder was so great that the chair peremptorily ordered the sergeant-at-arms to get assistants and expel one and all that refused to recognize his authority.

The uproar continued for some time, the convention getting beyond the control of the chair, but Hon. James G. Neal, of Cincinnati, a candidate for the gubernatorial nomination, secured order out of chaos by declaring that the body had more important work than to settle the petty quarrels of Hamilton county and moving the previous question. Debate thus cut off, the majority report was adopted by a vote of nine-tenths of the convention and peace again reigned for awhile.

The delegates settled back in their seats to listen to the report of the committee on resolutions, which was presented by General G. B. Finley, who pathetically lamented the fact that although the majority had labored with the minority in an out of season they had not been enabled to get a unanimity of sentiment on the silver question. The report reads:

MAJORITY PLATFORM.

The democracy of Ohio in convention assembled hereby resolve, that we most heartily endorse the honesty and economy of the administration of Governor James Campbell, and commend the sixty-ninth general assembly for its business qualifications, economy, reform and especially for having provided for a secret ballot, by which every voter in Ohio can cast his ballot in secret as he desires, and have his vote counted as cast.

We here invite attention to the fact that the republican party, though hypocritically professed to favor "a free ballot and fair count," yet opposed and voted against the bill for providing for a free and secret ballot, thus demonstrating its professions to be insincere and for political effect only; and we cordially endorse and approve the act of legislature regulating the compensation of county officers by providing for a fixed salary.

We are opposed to all class legislation and believe in a tariff levied for the sole purpose of producing a revenue sufficient to defray the legitimate expenses of the government, economically administered. We accept the issue tendered to us by the republican party on the subject of tariff, as represented by the so called "McKinley tariff act," confident that the verdict of the people of Ohio will be recorded against the iniquitous policy of so called protection by the republican party in the interest of favored classes against the masses.

We favor a graded income tax.

We denounce the demonitization of silver in 1873 by the party then in power, as an iniquitous alteration of the money standard in favor of creditors and against debtors, taxpayers and producers, and which by shutting off one of the sources of supply of primary money, operates continually to increase the value of gold, depress prices, hamper industry and disparage enterprises; and we demand the reinstatement of the constitutional standard of both gold and silver, with the equal right of each to free and unlimited coinage.

We denounce the republican billion dollar congress, which, by its extravagant expenditures, exhausted a surplus in the national treasury left by a democratic administration and created a deficit; which substituted despotic rule for free discussion in the house of representatives; and we congratulate the people on the defeat of the odious force bill demanded by a republican president and championed by the republican party for the purpose of perpetuating its rule by perverting the constitutional powers of the government, destroying free elections and placing the ballot box in the hands of unscrupulous partisans, in order, as declared by its speaker, Reed, to register the votes, supervise the elections, count the ballots and declare the results.

We are opposed to the enactment of all laws which unnecessarily interfere with the habits and customs of any of our people which are not offensive to the moral sentiments of the civilized world, and we believe that the personal rights of individuals should be curtailed only when it is essential to the maintenance of peace, good order and welfare of the community.

We favor the passage of such laws by the general assembly as will give us a system for the government of our municipalities uniform throughout the state, as the constitution requires, in which the executive and legislative power shall be separated, the former to be lodged in a mayor, and the latter in a council; both to be elected by the people; thereby realizing the principle of home rule, safe from the dangers and evils of special legislation.

We favor closer commercial relations with our Canadian neighbors, and the removal of the embarrassing restrictions which only vex our people without yielding any substantial revenue to the government.

We favor liberal and just pensions to deserving and disabled soldiers and sailors who fought for the maintenance of the government; like pensions to their widows and orphan children.

The persecution of the Jewish people by the Russian government justly deserves and receives our unqualified censure. We extend to them our sincere sympathies and believe this government, in connection with the enlightened governments of Europe disposed to unite with us, should take proper steps to alleviate the wrongs thus inflicted on this long suffering and oppressed people.

[The planks were greeted with applause and especially referring to the administration of Governor Campbell.

A minority report was presented by Frank Gorman, of Cincinnati. It reads as follows:

MINORITY REPORT.

We, the undersigned members of the committee on resolutions, recommend the adoption of the following resolution as a substitute for the plank in the platform on the free and unlimited coinage of silver: We believe in honest money, the coinage of gold and silver, and circulating medium convertible into such money without loss, and we oppose all legislation which tends to drive either gold or silver out of circulation, and we believe in maintaining the value of both metals on a parity; we also recommend that the resolution declaring for a graduated tax on incomes be stricken from the platform.

When the minority report had been read a discussion was demanded by its supporters and an effort to choke it off having failed, Judge Gorman energetically contended that it was not the province of a democratic convention to take up the fight of the silver senators of Colorado and Nevada. By adopting a free coinage plank the convention would put the seal of approval upon the issue of a debased coinage by the government. The republican party should not be permitted to divert the democracy from its true principles, and the democracy of Ohio could not afford to go into the campaign with the views on the money question as enumerated in the majority report. General Finley followed with an argument on the other side.

The tedious task of calling the roll of counties was gone through, nearly one-half of the delegations being split, and in the result the majority report was adopted by a vote of 899 to 300½. The antis refused to make the vote unanimous.

All things considered the business of the convention had been dispatched with commendable celerity, and it was only 1:20 when nominations for governor were declared in order.

Ex-Congressman Follette was the first to gain the ear of the convention for the purpose of nominating Hon. Lawrence T. Neal, of Cincinnati.

His speech was characterized by considerable fire and energy. He said that he was there as a democrat from Hamilton county, one of the class that had been characterized as minors and bums. For the first time in his political career he had heard Hamilton county men hooted in a convention; he had heard it said that the democracy of Ohio could get along without Hamilton county. They could not.

Whether in legislation or in state campaigns Hamilton county had always indicated the policy and the lines upon which the democratic party went forward in victory. He had grown gray-headed in the service of the democratic party, yet it had been said that he and his conferees had not retired early enough for their party's good. He desired to say that he was not there to be read out of the democratic party. [Great applause.]

The man he proposed to nominate was a pioneer in democracy. He was in the party long enough ago to vote for the old Roman for senator. [Three cheers were called for for Thurman and heartily responded to.] The speaker went on to say that where his candidate led, the democracy always followed. He was a man who would make no mistakes. He believed in the true democratic doctrine that no man, however humble, should be condemned without a chance to defend himself. True in victory and defeat, always fighting the battles of the people and the democracy in the interests of pure government and honest administration, a man around whom the democratic hosts would rally—such a man was Lawrence T. Neal. [Great applause.]

Dodge, of Cleveland, nominated Vergil P. Kline.

Gen. Michael Ryan, of Cincinnati, nominated Campbell. Ryan says he is there with a message from the democrats of Hamilton county that the wisest, safest and most practical thing the convention can do is to renominate Campbell. Great applause.

The Hamilton county delegation shouted "no" and hooted, but the greater portion of the great audience got upon its feet and cheered itself hoarse.

The following is the result of the first ballot:

Campbell, 508 7-16; Neal, 124 9-16; Kline, 66; Congressman Tom L. Johnson 1.

Kline's support is moved to make Campbell's nomination unanimous. Hamilton county shouted "no."

Neal moved the appointment of a committee to escort the next governor of Ohio into the hall. The Cincinnati delegates voted no.

Marquis was renominated by acclamation for lieutenant governor.

The committee appointed to wait on Governor Campbell returned and he made a rousing speech accepting the nomination.

BENDER FAMILY.

An Eye Witness Tells of Their Death and Burial.

ST. JOSEPH, Mo., July 15.—K. B. Randolph, an attorney of this city, who has returned from Nickerson, Kas., says that he there made the acquaintance of Tom Doolittle, an old time freighter, who told him a story of the famous Bender family, which, if true, settles all questions as to the whereabouts of the family of murderers. Doolittle says after the murder of York a band of searchers, headed by the murdered man's brother, went to the Bender house and extorted a confession from the old woman.

They then quietly proceeded to hang old man Bender, his wife and son to the rafters of the house. During these proceedings Kate Bender uttered some protest and was shot to death. After the family had been dispatched, York's avengers took their bodies to an old creek bed some yards distance from the house and buried them. The attention of a family living on an adjoining ranch was attracted to the Bender place some days after by a starving cat, and then their absence was first made known to the public. This gave rise to the report that the murderous family had fled to avoid punishment and caused the prolonged search after them by the officers of the law.

CHANGED HANDS.

Harrison's Friends Purchase a Greenburg Organ at Logansport.

LOGANSPORT, July 15.—The Logansport Journal, the leading republican organ of the Tenth congressional district, has been sold, Postmaster Daniel W. Tomlinson becoming the principal stockholder. W. D. Pratt, who has owned the paper for fifteen years, is a nephew of Ex-United States Senator D. D. Pratt, and a strong Graham man. It is believed here that the purchase was made in the interest of President Harrison and his renomination. It was understood that the paper was soon to place Graham's name at the head of its columns in case the paper was not sold, as Harrison has no friends here except a few officeholders. Tomlinson is a member of the republican state central committee and a boss in the Tenth congressional district.

SAILORS KILLED.

A Brutal Marshal Oversteps His Authority in Making Arrests.

SAN DIEGO, Cal., July 15.—The commander of the Charleston yesterday offered Marshal Gard $10 a head to return sailors who had overstayed their leave. The marshal swore in a lot of deputies, and in the hunt for men discovered several sailors in a saloon on the water front in the afternoon. A row ensued when the deputies attempted to arrest the men, during which Wes Brown, a young seaman on the Charleston, was killed by a club stroke from Deputy Coats, while Pat Burns, another seaman, was knocked down and run over by a heavy truck, and is reported dying. The citizens here are extremely indignant at the brutal action of the marshal and his deputies.

FARMERS MEET.

The F. M. B. A. Consider the State Ticket Question.

BRAZIL, Ind., July 15.—The Farmers' Mutual Benefit association met at Saline City yesterday, the session lasting till about 4 o'clock. Resolutions were passed condemning the liquor traffic and some other important business was transacted which was not made public. It is generally believed that they will place a county and possibly a state ticket in the field next campaign. They report a rapid increase in membership. The attendance was not as large as usual on account of the harvest season being at hand.

TRAMP HANGED.

He Steals a Ride on a Cowcatcher and Collides With a Horse.

NEW ALBANY, Ind., July 15.—While the east bound Air line passenger train was en route to this city yesterday the engine struck a horse at a road crossing. A tramp who was stealing a ride on the cowcatcher was struck by the animal and so badly crushed against the boiler-head that he cannot live.

CALLED ON THE PRESIDENT.

D. O. Mills and Daughter, Mrs. Whitelaw Reid, at Cape May.

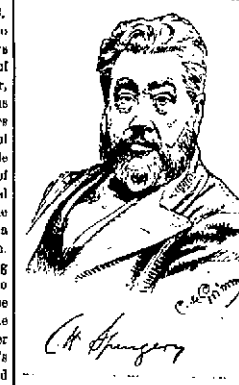
CAPE MAY, N. J., July 14.—Mr. D. O. Mills, of New York, and his daughter, Mrs. Whitelaw Reid, arrived here last evening in a special car from New York. Mr. Mills and Mrs. Reid called on the president and Mrs. Harrison last night. Mr. Mills stated that his visit here had no political significance, and that his call on the president was merely of a social character. Mr. Mills will return to New York today.

SPURGEON DYING.

Rev. Charles Spurgeon, the Great London Preacher, Suffers a Relapse and is in a Critical Condition.

LONDON, July 16.—Rev. Chas. Spurgeon has again suffered a relapse, and is almost at deaths door. Rev. Spurgeon is perhaps the most widely known preacher of the gospel in the world. He is now only fifty-seven years old.

In the whole history of the non conformist movement in England there is no man who has occupied a more prominent position. He came from a family of clergymen, his father and grandfather both being preachers of the Independent denomination. When sixteen years old he became teacher in a school at Newmarket, which town, by the way, is in two counties, the north side in Suffolk and the south side in Cambridgeshire. Afterwards he was attached to a school in Cambridge. While there he joined an association of lay preachers and at the early age of eighteen he was pastor of a Baptist congregation at Waterbeach. His preaching attracted attention and a year later he received a call to the New Park Street Baptist chapel in Southwark, London.



So great were the crowds who flocked to hear him that the congregation were obliged to find larger accommodation, first Exeter hall and afterwards in the Surrey Music hall. In Newington Butts a chapel was erected for his congregation capable of seating six thousand. Mr. Spurgeon has a personal magnetism in preaching that is marvelous. Each hearer is impressed with the idea that he alone is addressed, which accounts for his extraordinary popularity. He has received upwards of 20,000 persons into his church and about forty chapels have been erected in London by his followers, the ministers of which have graduated from a college founded by himself. His energy and activity are boundless, and some twenty volumes of his sermons have been published. Mr. Spurgeon has a fine expressive countenance which is full of earnestness. His sermons are listened to attentively by members of all religious denominations.

5 p. m.—Spurgeon is reported dying.

ANOTHER FIGHT.

Three of Balmaceda's War Ships Disabled by an Insurgent Vessel.

NEW YORK, July 15.—The Herald's Iquique dispatches confirm the reports of a naval engagement of the Chilian coast. The fight occurred on July 12, the insurgent cruiser Magellanes and three of Balmaceda's vessels being engaged. The battle was short and fierce, but the excellent discipline and valor of the Magellanes told against the superior numbers of the government cruisers, and the latter finally turned tail and fled, though in a badly crippled condition. The Magellanes pursued for awhile and continued to pump solid shot into her crippled adversaries, but at length gave up the chase, her commander being of the opinion that the Balmacedian ships would not be able to do any further damage to any one until they got a thorough patching up.

PANIC IN A CIRCUS.

A Loose Lion Clears the Tents of a 6,000 Audience.

ROCK ISLAND, Ill., July 15.—A panic occurred yesterday at a performance in Forepaugh's circus. There were 6,000 persons in attendance, when a lion in some manner got out of its cage and the immense crowd rushed for the street. Fortunately no one was killed in the wild rush to escape, but several were seriously injured. The lion did not get very far away from his cage, as the employes easily drove him under his wagon, where he was held by loose pieces of iron fence until the crowd could depart.

Take a half a day off and go to the races tomorrow.

The Weather.

WASHINGTON, July 15.—For Indiana: Fair tonight; stationary temperature, except slightly cooler at Indianapolis; north winds.

Everybody go to the races.

Dr. H. O. Sites, the dentist, was fifty years old Sunday and the anniversary was appropriately celebrated.

Louis Hirth, of Webster street, is quite seriously ill.

OH, HOW THEY FLY!

Magnificent Races Given at Swinney Park by the Driving Association—Filemaker's Big Jump.

Yesterday's races drew the largest crowd to Swinney Park that ever gathered there for a similar purpose. The day was a cheerful one, just comfortably warm, with a refreshing breeze from the west, which carried the dust from the track away from the crowded grand stands.

It was the first summer race of the Fort Wayne Driving club, and the attendance and interest indicated that the efforts of the management in giving a good show are appreciated by the citizens of Fort Wayne.

Promptly at 2 o'clock W. H. Fleming called up the horses for the 2:18 trot. Ten horses started in the race. They were as follows: Belle Whitney, driver, Dr. Collins, first place; Magnolia, driver, G. B. Beardsley, second; Lady H., driver, Wm. Mellen, third; Arctic B., driver, E. H. Gaston, fourth; Langehran, driver, Tom Edwards, fifth; Silver Star, driver, H. M. Hoffman, sixth; Glendale, driver, O. E. May, seventh; Hazel Wilkes, driver, John Clark, eighth; Tinson, driver, C. L. Carter ninth; The General, driver, W. C. Kinzer, tenth.

Lady H. won the first heat. The second heat was a great race from start to finish, and was won in the start by Langerhan W., a horse that sold for one dollar to ten in the books. The third heat was also won by Langheran W. and the fourth by Lady H. The fifth heat and the race was won by Langehran W., thus finishing one of the best races ever trotted over the track.

The 2:40 pace that followed was won in one, two, three order by Georgia M, with Guerin B a good second, the rest nowhere. Nettie R was distanced the first heat and Aubrey Nellie should have shared the same fate, but as the starter sent him away on a run he was allowed to start on that account. Pluton was distanced in the third heat for running and trotting instead of pacing.

Between the heats of the races Madame Marantette exhibited her famous horses, Woodlawn and Filemaker, and delighted everybody. Filemaker's jump was six feet and eight inches. He just arrived from Montreal yesterday and was in no condition for the exhibition. Tomorrow he will try to beat his record of seven feet and three and three quarters inches.

Today the program included the 2:24 trot and 2:30 pace for purses of $400 each, and a race for two-year-olds, purse, $150. Madame Marantette gave her entire performance, including the tandem hurdle team, which was omitted yesterday owing to the fatigue of horses and rider from their long journey. Tomorrow's program includes a 2:38 trot, the free-for-all, and a three-year-old trot.

Mary Centlivre and Strathso will meet in the 2:24 class pace on Friday. It will be one of the greatest races ever seen here and certainly the most interesting one to a Fort Wayne audience. Strathso has a record of 2:22, made at Windsor, Canada, last week. Mary Centlivre's record is 2:24½, though she has gone trials much faster and drove a horse out last week at Lima in 2:20½. Mary Centlivre is owned by the popular Centlivre Bros. and is driven by Mr. Frank Bogash. Strathso is owned by Mr. W. H. Watt and is piloted by William Mellen, of Three Rivers, Mich. Strathso is a Fort Wayne horse in all respects, having been bred by W. B. Bash, of this city.

LIGHTNING'S STROKE.

A Farmer and His Team Slain While Working in a Field.

SOUTH BEND, Ind., July 15.—Oliver Stuckey, a well-known farmer residing north of this city, was instantly killed yesterday by lightning, together with two horses with which he was plowing. About 1 o'clock in the afternoon Mr. Stuckey started out to plow. At 5 o'clock he did not appear for supper, and when 8 o'clock arrived, and he did not come home, a search was instituted. This revealed his dead body lying near the plow, while in front of it lay his two horses, also dead. An examination showed that the electric bolt which caused death descended directly on top of his head, singeing the hair and beard off the left side, burning the ear and passing down the side to his foot, leaving a purple streak to mark its track. The straw hat that he wore was torn to shreds, but his clothing was not materially damaged. There were no marks whatever upon the horses. His dog, which was about two rods behind its master, received a shock from which it will probably die. There was not a tree or any elevated object within forty rods of where Mr. Stuckey was killed. It is a singular coincidence that, a few years ago, and near where this accident occurred, a horse attached to a buggy was struck and instantly killed by lightning.

THE new city hall question is being agitated again.

THE democrats of Ohio and Iowa are going to make it interesting for the republicans this year.

NOTWITHSTANDING the financial embarrassment of the Muncie News, the paper continues to be issued.

THE New York Recorder thinks that the Blaine boom is the only one of all the booms that doesn't need careful nursing.

THE girls of Lafayette are happy. Ground has been broken in that city for a forty-thousand dollar pickle and vinegar factory.

THE races of the Driving Park club are claiming attention this week. Next week the soldier boys of the state will claim a big share of it.

THE paving of Berry street and East Wayne street is being pushed right along. Fort Wayne will ere long be one of the best paved cities in the country.

THE superintendent of the Crawfordsville high school will add a printing press, with type and other appliances, as a means of educating his pupils in the art of spelling.

THE second annual assembly of Spring Fountain Park is now in session at that popular resort. Many from this city will attend the assembly during its session, which continues until August 18th.

THE platform of the Ohio democracy has the right ring on the all important question of the tariff. It says: "We believe in a tariff levied for the sole purpose of producing a revenue sufficient to defray the legitimate expenses of the government economically administered." This kind of tariff reform may not suit the monopolists and the grinding corporations of the country, but it will be beneficial to the great body of the people, who are the consumers of the country.

A MEETING has been called for tomorrow evening, at the City hall, for the purpose of reorganizing the democratic railroad club, which has done such efficient and splendid work during the political campaigns of the last few years. It should be largely attended. The good that these party organizations do cannot be overestimated. They should be kept up. Questions of interest and importance are frequently coming up at their meetings, and then when the campaign is on, if the organizations are kept up, they are in good shape for telling work.

MUCH has been said of late in the state press about the establishment of a soldiers' and sailors' home for our old soldiers and wives who are without means of support. It has been proposed to build it upon the same plan as the soldiers' homes in Wisconsin and Ohio, and desirable sites are now being discussed. There isn't a city in the state that would be better adapted for such a home than Fort Wayne, and it might be that if a proper effort was made it could be secured for our city. Why wouldn't it be a good idea for the Women's Relief Corps to boom Fort Wayne for the location of this home?

THE count of money and bullion in the vaults of the national treasury consequent on the transfer of the office of treasurer from Mr. Huston to Mr. Nebeker has been concluded. It began April 17 and has involved the actual handling and counting piece by piece of $613,511,582 32, of which amount $26,048,600 is gold coin and $130,902,000, silver coin. Every cent called for by the books of the office has been accounted for, including the silver dollar missing from one of the bags examined several weeks since, which coin was subsequently found on the floor of the vault after the other bags had been removed.

William Schilling, ex city treasurer of Lafayette, is alarmingly ill.

WITHOUT ARGUMENT.

The Session of the Common Council Dull and Uninteresting--Report of Finance Committee.

Eighteen members of the council were present when Mayor Zollinger rapped for order last evening, Councilmen Ely and Schieffer being absent.

The meeting was devoid of anything that stirred up much of an argument, unless it was the Columbia street fill that leads to Lakeside, and as fast as petitions, resolutions, etc., were introduced they were disposed of without delay. Of the petitions were the following:

A. M. Dawson and twenty others remonstrated against laying any pavement on Berry street east of Barr street, but if one is laid they desire brick. Referred to the committee on streets.

Robert Gage and others remonstrate against a cedar block pavement on Main street west of the St. Mary's river, and cite reasons for their action. Referred to special committee.

B. Bangert asked for a drinking fountain in front of his place on Fairfield avenue. Referred to the street committee.

Edward Gilmartin asked the council to pave Clinton street to its full width—thirty six feet—between Chestnut and Railroad streets. Referred to committee on streets, civil engineer and city attorney with power to act.

W. P. Breen, secretary of the Fort Wayne District Telegraph company, asked the council to return $100 deposited by his company to insure its compliance with the conditions of the franchise granted by the city. Referred to street committee and city attorney.

The finance committee made the following interesting report:

In accordance with a resolution of the council, we herewith report the financial condition of the city government up to the first day of June, 1891.

We are happy to announce that the city treasury is now in better condition than for any period in the last twenty years, excepting the year 1887. At this time last year there was in the general fund $36,777; there is now in the general fund $45,204. Last year the city had at this time under contract nearly seven miles of pavement, which cost $53,000, all of which was extraordinary and has been paid in full. While we say the general fund is now $45,204, the council should remember that the fund called "waterworks purposes" owes the general fund about $5,000. There is now in the interest fund a surplus of $7,000, which will be $10,000 by next November. The treasurer estimates the income from the November installment at $77,000. The general fund levy would take from this $40,000. Adding these sums together

On hand—general fund	$ 45,204
Due from waterworks	5,000
Interest surplus	10,000
November installment—general fund	53,000
General fund total	$ 106,000
Ten months miscellaneous income	15,300
Makes a grand total of	$ 113,504

This $113,000 is the available assets for the next ten months. The ordinary running expenses per month are $8,000. This would make for ten months $80,000, leaving a surplus for improvements about $33,000. Of course this surplus is only to be created by wise and economical legislation and expenditures.

The other funds are all in proper condition, and as the law requires, by a reference to the worthy treasurer's report of May 19, every councilman, as well as the general public, can see the exact condition of every fund specifically.

LOUIS FOX,
HERMAN MICHAEL,
FRED G. BOLTZ,
GEO. W. ELY,
Committee on Finance.

The committee on streets submitted a report favoring the grading of several streets, building new sidewalks and other improvements, but nothing of general interest was contained therein, save perhaps a recommendation to macadamize Superior street from Barr to Spy Run avenue; and in favor of paving Canal street from Wayne street to the Nickel Plate railway. The matter of paving Lafayette street from Lewis to Washington was thought advisable by the committee.

A report of the committee on rules, regulations and ordinances gave a black eye to the venders of goods at street stands and resulted in the recommendation of an ordinance prohibiting such stands to exist. This will remove from the corners the unsightly boxes, in this way retiring the festive son of Italy, who "sella de bannan," of his occupation. Influence was brought to bear by merchants to effect the passage of this ordinance, for it is the legitimate merchant who claims to have his business damaged by these street stands where proprietors have only a small license to pay for the privilege of keeping themselves established.

Much talk arose over the question as to who should complete the filling in of Columbia street at the intersection of Clay. Mr. Randall made a statement, saying that the burden of the filling in had fallen on himself and Mr. Foster at a cost of $2,000, and he thought they had fulfilled the contract. On motion of Councilman Scheid the entire matter was referred to the committee of the whole. The committee will meet Monday morning at 10 o'clock.

An ordinance was passed assessing a fine of not more than $100 against any person disposing of old shoes, boots, garbage or any substance of any kind in vaults.

A resolution for the erection of a police patrol box at the corner of Taylor street and Broadway was adopted.

Resolutions were introduced for the erection of a new city hall. One favored the market square and the other favored the lots on which the engine house now stands. Both resolutions were referred to a special committee consisting of the committee on public grounds and buildings and Messrs. Bolts and Fox.

"I'LL TAKE ONE."

Said "Your Uncle Andy" to the Midgets Yesterday, and he Did.

Monday evening the Midgets, led by their gallant captain, marched up Calhoun street to the south depot, where they took a train for Evansville, at which place they proposed to "do up" Andy's aggregation or die. According to telegrams received last evening, "Your Uncle" proceeded to slay the Midgets right and left, and when their shattered ranks were closed up at the end of the battle but one man was found to have scaled the walls, and that was Briggs, who made a home run.

There being no league umpire present Hecker put Raffert in to pitch, and while he has no pretentions of being a twirler, so effective was his work that but eight hits were made off of him. We are still second, but by such a small margin that we are trembling in the balance. Those Wolverines are playing great ball now and are right on our heels, and if they keep up their present lick for a day or more we will drop from our long resting place.

Today's meeting of the league magnates at Dayton will be watched with great interest, for on their decision will determine the fate of the Northwestern league. Both Dayton and Evansville are in a cloudy condition, and if the sharp eyes of the chiefs are not able to penetrate the gloom there may be a collapse.

The Northwestern league scores are as follows:

SAILING SMOOTHLY.

The Philharmonic Society Hold an Important Meeting--Prospects.

A meeting of the Philharmonic society at the rooms, 108 Calhoun street, Monday evening was productive of a great deal in the way of getting the new organization fully under way. Although this society was but recently started, it has already enrolled a membership of more than thirty music-loving gentlemen, and as the membership is limited to fifty it will not be long before the full quota is admitted.

The membership consists of different classes of musicians of a high order, including the leader of Reineke's orchestra, members of the City band, Euphonia double quartet and others, who could not do otherwise than reflect credit upon the society. A reception or "smoker" is one of the contemplated events of the near future, at which time the Philharmonics will give their friends an opportunity to fully understand that they have formed a society not only for social purposes but to advance the knowledge of music.

The membership at present consists of Professor Fred Reineke, August Schmidt, Felix Schanz, Louis Ourdes, Will Seibold, C. Scheiman, Sam Burdett, Will Spiegel, G. Scheiffer, Gus Schwegman, William Basde, Will Laukenau, Henry Zur Muehlen, Otto Gross, Henry Scherer, J. Schwegman, Charles Moellering, George Jacobs, Harry Achenbach, Charles Siemon, M. Frankenstein, August Bruder, Herman Tresselt, E. Noll, Otto Herbst, Fred Reese, Jacob Meyer, Max Ritter, Charles Meyer and Henry Sorge.

IN A WHEAT BIN.

A Little Boy, While Playing, is Smothered to Death.

MUNCIE, Ind., July 14.—Yesterday one of the saddest accidents that ever befell the little town of Albany, this county, occurred, and as a result Freddie, the bright little five year old son of John Richey, is dead from being smothered in a wheat bin. Unnoticed, this little fellow wandered to Smith & Stafford's grain elevator and climbed into a large bin of new wheat that was being loaded into a car. He crept too near the chute and as if in a whirlpool of water he was sucked to the bottom of the grain bed, where he died instantly from suffocation. A small companion leaped into the grain bed to save the little fellow and he, too, came near going down before help came and the chute closed. Mr. Richey is one of the town's first citizens and general regret prevails both at Albany and in this city, where the family is well known.

BRIDAL TRIP ON BICYCLES.

A Newly Married Chicago Couple's Novel Honeymoon Journey.

DETROIT, July 14.—There arrived at a hotel here last night a couple from Chicago, who registered as N. J. Anderson and bride, and whose impedimenta included an ordinary and a ladies' bicycle. The pair came down to breakfast this morning arrayed in the nattiest bicycle attire, and Anderson confided to the clerk that they had just been married in Chicago, and were going to wheel from here to New York city for a honeymoon trip. They left Windsor for the east about noon, and started on a rattling gait for their 700 mile trip. Anderson is a smooth faced young fellow and his bride a pretty blonde.

RAILROADS AND SHOPS.

A Stormy Time on a Michigan Railroad--Unlimited Tickets Will Come Again--Local News.

"Nothing specially new here today," said Sam Powell at the depot yesterday. "Say, Sam, this storm makes me think of eleven years ago today. Do you remember? You were running south that night on No. 2 and I was north bound on No. 3, and both flagging for each other. That was the worst storm I ever saw. The road was new and through the woods all the way. Every few rods we had to get out and cut out the trees blown across the track. In many places the trees were piled up three and four feet deep and every able-bodied man on the train was chopping and his wife carrying brush. We had to run ahead as far as we could and then stop, let the men off and then run the train back to some clearing out of danger of the falling trees. I broke my pilot and headlight off early in the night, and you did too, didn't you Sam?" "Me! My fire went out at Cadillac and I had to run with a cold engine half the night. My pony truck broke jumping the first log I struck." "Say, Sam, we were a sorry looking pair when we came together up there, eh? That's the worst storm I ever saw."—Grand Rapids Democrat.

UNLIMITED TICKETS WILL COME AGAIN.

A prominent local passenger man predicts the abolishing of the unlimited ticket has proven a failure already, and that within the next ninety days the scheme will have proven entirely inoperative. The fact that the Lake Shore and other eastern trunk lines had to resume the sale of unlimited tickets to keep even with the Grand Trunk, leads one to the belief that at no distant date will the Western Passenger association be compelled to fall in line. It is further claimed that the abolition of mileage books, prepared some time since, is an impossibility. The general passenger agents voted in favor of this move, but the managers to whom it was referred have maintained silence on the subject.

NEW WAY TO PAY OLD DEBTS.

Harry Crawford got off very easily in settling the book-pay claims of the striking employes of the Midland. Most of these had assigned from 75 to 90 per cent. of their claims to tradesmen for the necessaries of life, and when Crawford came to pay up he only liquidated the unassigned portions of his men's wages. The butchers, bakers, grocers and dry goods men who were left to hold the bag, are now clamoring for their pay, but since they cannot strike they have no means of forcing a settlement.

NOVELTIES IN CIRCULARS.

A number of the roads are vying with each other for the production of novelties in circulars and time cards for the G. A. R. encampment. W. H. Fisher, formerly of the Lake Erie and Western with headquarters in this city, but now of the Columbus and Hocking Valley, has issued one in the form of an American flag when folded. When opened it presents a complete time schedule, in various colored type. It is a neat and attractive advertisement.

COMMERCIAL TRAVELERS DELIGHTED.

The commercial travelers are much delighted over the fact that the Lake Shore will exchange for a partially used five thousand mile book one of the same number of coupons in the name of another person, upon application of a business firm, accompanied by the statement that the original holder of the ticket has left its employ.

W. Zuthermaster, of the electric works, is running a refreshment stand at the races.

J. H. Upp, traveling auditor of the Lake Erie and Western, was in the city last evening.

C. Rodenbeck and F. Scherer, cabinetmakers in the Pittsburg shops, are on the sick list.

Fireman W. R. Kilgore, of the Pittsburg, has reported for duty after a week's absence on account of sickness.

The Wabash people are increasing their side track room between St. Louis and Toledo this season some twelve miles, which will greatly expedite the movement of trains when traffic becomes heavy.

E. Cothrell, a mechanic, formerly of this city, is here now visiting relatives. His home is in Chicago.

A train load of wheat passed east on the Wabash this morning. Every day the grain traffic increases.

Pittsburg limited No. 5 was two hours late this morning. The delay was due to some slight accident on the eastern division.

The Electric Light company yesterday shipped a light machine to the Merchants' Electric Light company, at Philadelphia.

H. Dornte is absent from the Pittsburg car shop this morning. Rumor has it that he will resign to engage in other business.

Charles Conklin, passenger engineer on the Lake Erie and Western, handed in his resignation yesterday to take effect immediately.

The Big Four conductors are required to run passenger trains without brakemen on the Dayton and Union branch, to cut down expenses.

The gross earnings for all lines connected with the Grand Rapids and Indiana management for the week ending July 7 were $70,547.40.

Engineer J. Parrish, of the Pittsburg, has taken a two months' vacation, during which he will visit friends and relatives at Pittsburg and Altoona, Pa.

William Schaefer, the Pittsburg boilermaker, who was taken severely ill last week, has suffered a relapse and this morning was compelled to quit work.

J. F. Lesah, of the Pittsburg shops, is in Cleveland, attending a meeting of the advisory board of the Pennsylvania Voluntary Relief association, of which he is a member.

Elsewhere in this paper will be found a notice of a meeting of the Cleveland and Thurman Railway club, which is called for tomorrow evening at 7:30 o'clock. All railroaders are invited to attend.

The general freightagent of the Baltimore and Ohio road states that the company has already contracted to carry 6,000 car loads of wheat this month and next. This amounts to 3,500,000 bushels and will be exported as fast as received.

George Ferguson, an employe at the organ factory, had the misfortune to lose the index finger of his left hand yesterday, while operating a circular saw. Dr. Van Buskirk dressed the injured hand and the patient is getting along nicely.

Henry White, who has just been appointed engineer of maintenance of way of the St. Louis division of the Big Four, is a grandson of the late Chief Justice Waite and nephew of C. C. Waite, president of the Columbus and Hocking Valley road.

William Martin, of Dayton, Ohio, arrived in the city last week and has taken a position in the machine room at the factory of the Fort Wayne Furniture company. William Snyder, a cabinetmaker, and two other men were also added to the force of the factory.

The boilermakers base ball club of the Pittsburg shops have challenged the club composed of boilermakers in the Kerr Murray works. The latter, who have the choice of day and grounds, have not yet accepted the challenge, but it is expected they will do so today.

From the following, clipped from the Grand Rapids Democrat, we judge that the Grand Rapids and Indiana railroad is enjoying a heavy passenger traffic: "All sleeping car births for north bound trains were sold for last night's departures by noon yesterday. Reservations are sold ahead as far as July 20."

Charles Koch, a cabinetmaker in the employ of the Fort Wayne Furniture company, who has been sick for some weeks, is improving and will doubtless return to his work this week. William Owens, of the same shop, has recovered and resumed operations. Fred Broer, also an employe, is not getting along so well. In fact he is in a bad way, being threatened with paralysis.

George Threadgall, Frank Morel and Fred Niedenmeyer, formerly of the Bass shops, will leave tonight for Madison, Ill., where they will take positions in the moulding department of the Madison car shops. George M. Fordney is the foreman of the Madison works and writes that as soon as they are in full operation he will need several more car wheel moulders, who he expects to take from this city. Making car wheels is one of the most difficult parts of the moulders' trade, and good car wheel makers are scarce, hence the men who follow this branch of the trade are constantly in demand and receive good wages.

MYERS' RESOLVE.

The Desperado Will Lead a Better Life When He Gets Out of Prison.

When Mervin Kuhns, the Fostoria murderer, was taken from Tiffin to the Ohio penitentiary at Columbus, he was accompanied by Kora Briggs, the versatile city editor of the Tiffin Daily Advertiser, from whose account of the trip we clip the following:

"At Chicago Junction another halt was had. Here the crowd was the largest encountered on the journey. This junction is the crossing of the Baltimore and Ohio of that portion of the road that runs through Indiana, the state in which the prisoner was born. A number of those congregated there were friends of Kuhns, which caused the officers to think there might possibly be an attempt made by the prisoner to escape, or his friends might attempt to rescue him. But it proved here as at other places where stops were made, that it was only to satisfy the curiosity they had to catch a glimpse of the prisoner.

"At this point occurred an amusing episode of the journey. Among the number of sight seers were several ladies. Kuhns laughed and joked with them. But the one who seemed to catch his eye above all others was a beautiful maiden of seventeen summers by the name of Miss Anna Stoll. She laughed and talked with him a good while, and then walked over to and leaned against a door with her back to the prisoner. He watched her intently for a few moments and then slipped stealthily up behind her and implanted a kiss upon her plump and rosy cheek. For a moment she was dumbfounded, but soon recovered from the fright, and blushingly told Kuhns he was improving a short acquaintance.

"From Chicago Junction to Columbus the trip was made without incident, except just before Newark was reached. At this point one of the officers who had provided himself with a small amount of liquor produced the flask and gave Kuhns a drink. Before partaking Kuhns raised the bottle and addressing the men said: 'Gentlemen, I am going into the penitentiary a sober man; it is a shoreless thought to a man only twenty four years of age that he has to pass the remainder of his life in prison for a crime of which he is innocent; I will go to work, behave myself and if ever I get out of this, will go to work and lead a better life.'

"When the prison was reached only a few persons who had been informed that he would arrive last night were present. In less than fifteen minutes from the time he entered the prison he had been searched and placed in a cell, the bolt turned and he was left to meditate upon what had brought him to such a fate."

The stockholders of the Tri-state Building and Loan association held an election last evening, resulting in the selection of the following directors: G. W. Pixley, D. N. Foster, J. F. W. Meyers, J. W. Bell, C. D. Law, P. A. Randall, A. D. Cressler, C. J. Sossenheimer, W. E. Mossman, James W. Wilding, W. J. Vesey, Leo. Frieburgor, J. D. Bond, R. T. McDonald, Louis Fox, E. H. McDonald, O. P. Morgan, H. C. Paul and S. M. Nickey. The following officers were elected: President, George W. Pixley; vice president, A. D. Cressler; secretary, O. A. Wilding; and treasurer, Joe W. Bell. The executive committee is now composed of the following directors: George W. Pixley, D. N. Foster, Joe W. Bell, A. D. Cressler, W. E. Mossman, James W. Wilding, E. H. McDonald and H. C. Paul. The two associations show a surplus of $5,100 beyond maturing stock to date, according to tables made by the secretary. The whole business conducted and all expenses paid from membership fees, not a dollar is taken from the interest account to pay expenses.

The following frank statement from J. E. Hare, of Trenton, Texas, will be of interest to many of our citizens: "My little boy was very bad off for two months with diarrhoea. We used various medicines, also called in two Doctors, but nothing done him any good until we used Chamberlain's Colic, Cholera and Diarrhoea Remedy, which gave immediate relief and soon cured him. I consider it the best medicine made and can conscientiously recommend it to all who need a diarrhoea or colic medicine." For sale by druggists.

A GREAT LOSS.

The Enormous Amount of Life Which has Gone Out of the American People.—Can It Ever be Recovered?

Have you noticed that there are more broken-down men and women on our streets to-day than ever before? Have you not noticed that certain of your friends, whom you have always known to be strong and healthy, are for some reason, weak and low spirited? Is it not possible that you yourself feel a little less vivacious than in the past is it a fact that the American people are growing weaker, or is it due to some local cause? There can be little doubt that it is owing almost entirely to the scarlet fever effects of the grip. This terrible and mysterious complaint, starting unceremoniously and running severely, invariably leaves the person in a weak, nervous and run down condition, from which it requires much time to recover. When people are in such a state, when nature is weak and broken, what would common sense dictate should be done? Surely what physicians say would be true, viz: assist nature, stimulate her lacking faculties, build her up. How? By using a pure medicinal stimulant, and for this purpose there is no one to compare to pure whiskey. Doctors, prescribe men, and leading thinkers of the land have declared this, and have subscribed to it agreed that there is no whiskey so pure and perfect for use as Duffy's Pure Malt. It stimulates healthily and builds up wasted tissues. It removes the nervous exhilaration and restores to health. It is popular because it is so effectual. Great care should be taken however to secure only genuine. Distrust any dealer who for any reason seeks to induce you to buy some other kind. Duffy's Pure Malt. In the position now of this pure stimulant the after effects of the grip may be removed and health and strength put in place of weakness and debility.

The attorney-general holds that franchises of corporations organized under the laws of other states, but doing business in this must be taxed. He also holds that a bank, as a corporation, can have no credits with which to offset taxable property. This opinion was called out by an attempt of certain banks to reduce their taxes by insisting on credits to offset them.

A party of fishermen, consisting of John Racine, Christ Hostman, George Simonton, Fred Smenner and Harry Eckels, returned yesterday from a fish of a few days at Viborg's lake. They report having had a splendid time, and say they caught a wagon load of fish, but the latter statement has to be taken with a good deal of allowances, for the boys' stories differ so materially.

An illustrated work, representing the industries and wealth of McKeesport, Pa., has just been issued by the Daily News, of that city. It gives extended and flattering mention of Jos. A. It had crawled under the house, and up to the hour of going to press Christ hadn't recovered possession of his turtle. The next time he catches a turtle, he says, he will tie it in such a manner that it won't escape.

TORTURING ECZEMA.

Editor Iowa Plain Dealer Cured of Insufferable Itching and Pain by the Cuticura Remedies.

No Less Than Five Physicians Consulted. Their Combined Wisdom Followed Without Benefit.

I am sixty-six years old. In August, 1882, was troubled with a peculiar skin disease to which people of my age are subject, known among medical men as eczema. Its first appearance was near the ankles. It rapidly extended over the lower extremities until my legs were nearly one raw sore; from legs the trouble extended across the hips, shoulders and the entire length of the arms, the hands and arms greatly swollen with an itching burning pain, without cessation. Although the best medical advice attainable was employed, no less than five physicians of the place being consulted, and the prescription being the result of their combined wisdom the disease though apparently checked, would recur in a few days as bad as ever, during its progress my weight fell away about twenty-five pounds. As an experiment I began the use of Cuticura, following the simple and plain instructions given with the Remedies, and in four weeks found myself with skin soft and natural in color, the itching and pain entirely relieved. W. K. MEAD, Editor Iowa Plain Dealer, Cresco, Ia.

City Treasurer Sossenheimer has received a letter from Martin Hoagland, desk sergeant of the police department at Chicago, concerning the drowning of Wm. Boyle at that city. He says the body of the man has not yet been found, although the clothing that was picked up has been identified as his. Two other men were bathing in the lake at the same time, but when they left Boyle was still in the water.

Carl Webber, the pleasant deputy in City Treasurer Sossenheimer's office, has been confined to his home for several days by illness. Some years ago he was struck on the nose by a base ball. Speaking of the city department of the Young Men's Christian association, Secretary Bower says: "Never in its history has it been in a better condition than at the present, but to make the work as successful as it should be there must be improvements made. It must not go backward or stand still, but forward. There are many men in the city who have not given at all or very sparingly who should be willing to now come forward and give this institution, of which we all are justly proud, a boost. About $1,000 will be needed to make the necessary improvements."

The daily ration for the encampment is prescribed by Adjutant General Buckle as follows: One and one fourth pound fresh beef to each ration, eighteen ounces fresh bread to each ration, one pound of vegetables to each ration; and to each one hundred rations: Fifteen pounds beans, ten pounds ground and roasted coffee, one pound tea, twenty pounds sugar, five quarts vinegar, five pounds soap, five pounds salt, six ounces pepper, two pounds candles, and beef or other soup extracts as the subsistence of the men may require. Such additional vegetables or such other articles will be issued as the brigade council of administration may determine to be necessary.

MUST KEEP 'EM UP.

Tax Commissioner Walker Arrives in the City and Instructs the Board of Review.

Colonel I. N. Walker, state tax commissioner, of Indianapolis, arrived in the city today on an official visit. He called upon the board of review, now sitting to equalize taxation and examined into the work already done by the board. He found that only complaints of personal taxation had yet received attention, the franchises and banks not having been considered. He instructed the board to "keep up the taxes" for if the board did not do so the state board would do so for them. Tomorrow the presidents of banks and the owners of franchises will meet with the board for the purpose of adjusting taxes, a vexatious task that will require careful judgment.

Tax Commissioner Walker said to a reporter: "The counties, with one or two exceptions, are keeping the taxes up and reductions are few. This is as it should and must be. I find Allen county assessed about right."

President Heath, of the board of review, said that numerous complaints that are filed before them, are withdrawn as soon as the board makes an explanation of the situation and the cause of the assessments made. Tomorrow will be the first busy day the board has had since it convened.

SEVERAL ACCIDENTS.

W. L. Carnahan Thrown from a Carriage—Bruce Noonan's Leg Fractured.

W. L. Carnahan, the wholesale shoe dealer, and a Mr. Crawford, of Payne, Ohio, went out for a drive this morning, the horse being one that Mr. Carnahan contemplated purchasing. When near Glasgow avenue the animal became frightened on account of a disarrangement of the harness, and became uncontrollable. The steed dashed wildly at its will, dragging the light vehicle and its occupants after it until one of the wheels struck a projection, upsetting the buggy and throwing both gentlemen violently to the ground. The horse ran madly on but was captured soon after. Mr. Carnahan and his companion were stunned but not stricken unconscious. They walked to the nearest drug store where their injuries, consisting of bruises only, were attended to.

FROM A TREE.

Bruce Noonan, a young man living in this county near Huntertown, is confined to the bed with a fractured leg and other injuries received by a fall. It will require weeks for him to recover.

Mrs. William Scheerer, of Wall street, had the misfortune to catch her left hand under a stove while moving. Two fingers were torn in a horrible manner and one of the members was amputated by Dr. Proegler.

STRICKEN WITH PARALYSIS.

Mrs. Martin Deizer Seriously Afflicted and Rendered Helpless.

The many friends of Mrs. Martin Deizer, wife of the druggist at 280 Calhoun street, will be pained to learn that last evening, shortly after 9 o'clock, she was stricken with paralysis. The lady's right side is affected. While the case is very serious it cannot be said that the stroke will prove fatal. It is to be hoped that the unfortunate lady will recover.

Arrangements had been made by Mr. and Mrs. Deizer to move into their new home in Lakeside tomorrow, and the house was partially furnished for their reception. Mrs. Deizer has been an invalid for some time past but this serious change for the worse was not anticipated.

FIGHT WITH A RATTLER.

Geo. H. Darby, a Farmer, Kills a Snake With Eleven Rattles.

While harvesting his wheat yesterday on his farm in Lake township, Geo. H. Darby, a prominent farmer, was confronted with a rattle snake something over three feet long. Hastily grasping a rake Mr. Darby attacked the snake, striking it a blow which killed it. He found, on examination, it was a black rattler, from which he took ten rattles and a button. Mr. Darby brought the rattlers to this office and they are exhibited to visitors by our snake editor.

A JUDGE IMPRISONED.

Ladies Lock Him up to Extort a Decision in a Divorce Case.

Jeffersonville, Ind., July 15.—The sensational divorce suit of Mrs. W. N. McCoy against Dr. McCoy, after an exciting trial, closed yesterday with a new sensation. When Judge Ferguson proceeded to render his verdict the attorneys made answer that the litigants had reconsidered their differences and were again living together. Another funny episode in the trial happened at West Baden Springs, where the judge sojourned over Sunday. The ladies there had become interested, and were so eager to learn the decision of the court ahead of time that they locked the judge in his room and refused to let him out until he told what he would do. He proved obdurate and was finally released without gratifying their curiosity.

JUDGE WARDER DEAD.

The Once Brilliant Attorney Sends a Bullet Into His Brain.

Chattanooga, Tenn., July 15—Judge James A. Warder, who shot and killed his son-in-law, S. M. Fogette, and dangerously wounded his daughter, Mrs. Fogette, while she was trying to save her husband's life, on January 18 last, shot himself in the right ear early this morning at the stone cottage on Lookout mountain. He survived until 10:45 o'clock this morning. Judge Warder was the district attorney of this city at the time of the murder, which was the most appalling tragedy known in this state. Intense grief and remorse gradually unsettled his mind, until he became but a shadow of his former self.

Grand CLEARING SALE

OF FANCY AND DRY GOODS,

BEGINNING SATURDAY MORNING NEXT, JULY 18th, Continuing Until Further Notice.

Our Annual Clearing sale has become a household word, and we can truthfully say that each sale has been greater than the predecessor, one proof of which is that we sold 29 per cent. more goods at our last, than any previous sale.

THIS WE SHOW BY ACTUAL FIGURES.

We attribute our success to the fact that we do precisely what we advertise to do, and that not only do we sell summer Goods, that are becoming unseasonable, at the reduced prices, but everything in our store.

Another feature worthy of consideration in connection with our sales is, that we never run out of anything advertised an hour after the sale begins, but have enough to give everyone an opportunity to get what they want, within any reasonable time after the sale begins.

READ EVERY WORD OF THIS and if you are interested, cut it out and bring the advertisement along with you and you can find just what you had made up your mind to buy. We don't have the time to re-mark everything in the store, but each clerk is furnished with a copy of this paper and sell the goods accordingly. Where else do you find such square dealing? We have't space enough to give you the price of every thing, but we give the following list and guarantee everything else to be marked in proportion.

N. B.—Where we state in this advertisement that there will be a discount allowed, it means that we sell the goods at the regular price and take the discount off the bill before you pay it. This plan is adopted to save us the time and the trouble of re-marking every article, which would compel us to close the store for at least two days. But it is better for the customer, as in most cases it brings the goods to a lower figure than if marked at the actual cost.
